VII. Four Factor Analysis

The Commission on Aging is required to take reasonable steps to ensure meaningful access to their programs and activities by LEP persons. While designed to be a flexible and fact-dependent standard, the starting point is an individualized assessment that balances the following four factors:

- The number or proportion of LEP persons eligible to be served or likely to be encountered by the program or grantee.
- the frequency with which LEP individuals meet the program.
- the nature and importance of the program, activity, or service provided by the program to people's lives; and
- the resources available to the grantee/recipient or agency, and costs.

Factor 1: Number/Proportion of LEP Persons in Service Area

- Include data from sources such as the US Census Bureau's Demographic and Housing Characteristics or American Community Survey
- Include a listing of the counts and percentages of LEP individuals present in your service area by language.
- Identify if any of the LEP languages reach the LEP threshold of 5%, or the Safe Harbor Threshold (1,000 persons).

The Commission on Aging examined the US Census report from 2020 and the Bureau's Demographic and Housing Characteristics and was able to determine that approximately **5.3%**, or **2,469** people within the Commission on Aging service area age 5 and older spoke a language other than English. Of the **2,469** reporting they speak other languages than English, **779** or **1.6%** of respondents speak English less than "very well." The **Spanish** language comprised the largest non-English speaking language group with **3.7%**. The other largest non-English speaking language group was the **Asian and Pacific Island** language at **0.3%**.

Factor 2: Frequency of Contact with LEP Persons

- How frequently does your organization encounter LEP persons?
- Are you in contact with LEP persons within a specific language group, and that language is not identified in Factor One?
- Include information gathered from face-to-face meetings with LEP persons or from surveys of LEP persons.
- Include information gathered from interviews with agency staff who typically encounter LEP persons.
- Include information kept by your organization on past interactions with members of the public who are LEP.

Via verbally surveying drivers and dispatchers, the Commission on Aging has had **0** requests for interpreters and/or translated the Commission on Aging documents. The staff and drivers have had little to no contact with LEP individuals.

Factor 3: Nature and importance of the program, activity, or service provided by the program in people's lives

Access to the services provided by the Commission on Aging is critical to the lives of many residents in the service area. Many people depend on the Commission on Aging services for access to jobs and for access to essential community services like schools, shopping, and medical appointments. Because of the essential nature of the services and the importance of these programs in the lives of many of the region's residents, there is a need to ensure that language is not a barrier to access.

Factor 4: The resources available to the Commission on Aging and overall costs.

The Commission on Aging assessed the available resources that could be used for providing LEP assistance. This included identifying how much a professional interpreter and translation service would cost, and which documents would be the most valuable to be translated when the populations would support it.

After analyzing the four factors, the Commission on Aging does not feel that a formal LEP plan is needed at this time.

Limited English Proficiency (LEP) Plan

The Commission on Aging does not feel that a formal LEP plan is needed. However, the Commission on Aging will use the following guidelines and resources to assist persons with limited English proficiency if the need should arise.

If an interpreter is needed immediately, in person or on the telephone, staff will help determine what language assistance is needed. Staff shall then contact www.languageline.com for assistance. On the Language Line webpage, staff will select

the **Need an Interpreter Now** link in the popup window and follow the directions to receive an access code.

The Commission on Aging will add to our webpage the Title VI policy and complaint Procedures.

the Commission on Aging will educate our staff on the following procedures:

1. Understanding the Title VI policy and LEP responsibilities.
2. How to access language assistant services via www.languageline.com
3. Document language assistance requests
4. The procedure if a Title VI and/or LEP complaint is filed.

Public Participation Plan

The Commission on Aging community and minority outreach plan is based on the following principles:

- Flexibility - The engagement process will accommodate participation in a variety of ways and be adjusted as needed.
- Inclusiveness – the Commission on Aging will proactively reach out to and engage low income, minority and LEP populations from the Commission on Aging service area.
- Respect - All feedback will be given careful and respectful consideration.
- Initiative-taking and Timeliness - Participation methods will allow for early involvement and be ongoing.
- Clear, Focused and Understandable - Participation methods will have a clear purpose and use for the input and will be described in language that is easy to understand.
- Honest and Transparent - Information provided will be accurate, trustworthy, and complete.
- Responsiveness – the Commission on Aging will respond and incorporate appropriate public comments into transportation decisions.
- Accessibility – Meetings will be held in locations which are fully accessible and welcoming to all area residents, including, but not limited to, low-income and minority members of the public and in locations relevant to the topics being presented and discussed.

As an agency receiving federal financial assistance, the Commission on Aging has made the following community and minority outreach efforts since the last submission of a Title VI program:

The Commission on Aging submits to the Michigan Department of Transportation annually an application for funding. The application requests funding for both capital and operating assistance. Part of the annual application is a public notice, which includes a 30-day public comment period.

The Commission on Aging actively participates in the county human services – coordinated transportation services plan. **Local Advisory Council - Vehicle Accessibility Plan**

The Commission on Aging currently publishes hours of service and any changes in route schedules.

The Commission on Aging's governing body is the Newaygo County Board of Commissioner holds monthly meetings that the public is invited to attend.

The Commission on Aging has a complaint procedure that is available to the public at any time and is also available to the public via our website at www.newaygocountymi.gov/departments/commission-on-aging/commission-on-aging/

Membership of Non-Elected Committees

The Commission on Aging will publicly advertise and post on our website to encourage minority participation on non-elected committees such as the LAC (Local Advisory Council).

Body	Caucasian	Latino	African American	Asian American	Native American
Population	95.4%	6.1%	1.2%	0.5%	0.9%
Local Advisory Council	100%	0%	0%	0%	0%

Equity Analysis

If the Commission on Aging constructs a facility, such as a vehicle storage facility, maintenance facility, operations center, or other building, it will do a Title VI equity analysis following the procedures listed below:

The Commission on Aging shall complete a Title VI equity analysis during the planning stage regarding where a project is located or sited to ensure the location is selected without regard to race, color, or national origin.

When evaluating locations of facilities, agencies should give attention to other facilities with similar impacts in the area to determine if any cumulative adverse impacts might result.

If the Commission on Aging determines that the location of the project will result in a disparate impact based on race, color, or national origin, the Commission on Aging may only locate the project in that location if there is a substantial legitimate justification for

locating the project there, and where there are no alternative locations that would have a less disparate impact based on race, color, or national origin.
